Return

# SPAWAR SERVER

- Centralized data repository for Marine Corps Law Enforcement worldwide
- Fully web-enabled requiring PKI Digital Certificate, Userid, and Password for access
- Development based upon OPNAV 5527 series forms, DIBRS, LEPSAR, and Marine Corp Law Enforcement Manual

# SPAWAR SERVER

- Data backed-up daily
- Source code backed-up as changes occur
- Utilize Sun's maintenance service for hardware and operating system support
- Utilize Oracle's maintenance service for database software support
- Web server software comprised of Windows NT 4.0, Netscape SuiteSpot, and ChiliSoft

Return

# LOCAL SERVER

- Faster Access To Local Information
- Controls Data Flow Between MCIBRS, ESS, Local GIS System, and CLEOC
- Controls and Updates Graphical Display
- Controls and Updates Local GIS Database

Return

# Local (GIS)

- **Uses Local GIS System**
- **Build Additional Overlays to Display ESS and MCIBRS Information**
  - Facilities Having ESS and How Occupies the Facility
  - Display Hours of Operations
  - POC for Emergencies
    - Name, Unit, Phone, etc.

Return

# MCIBRS - CLEOC - DEERS

- Auto-populate personal data
- Initially limited to Marine Corps personal data
- Updated Monthly
- Search by name and SSN
- User can update data provided by DEERS - updates not sent to DEERS

Return

# Final Comments

- **Problems and Concerns**
- **Summary**

Return

# Problems and Concerns

- **Getting PKI Certificates to users**
- **Training**
  - Level-1 and Level-2 Capabilities
  - Level-3 and Level-4 Capabilities
  - Standardizing Data Input
- **Legacy Data**
  - Vehicle Registration
  - Traffic Violations

# Summary

- MCIBRS Collects Approximately 75 Percent of the Data Required by Marine Corps Law Enforcement for Reporting
- Generate Graphs and Reports Based on Presentation Needs
- Expandable to Include Any Data Collected by Form Used by the Provost Marshal's Office
